Summary

- Currently pursuing a B.Tech in Computer Science Engineering at RIT Kottayam under APJ Abdul Kalam Technological University.
- Full-stack developer with hands-on experience in MERN stack applications and CLI tooling.
- FOSS advocate and DevOps explorer, building tools that bridge community needs with automated workflows.
- Strong leadership and community-building background as a Campus Lead, Campus Ambassador, and recurring Hackathon Mentor.

Skills

Languages: JavaScript, TypeScript, Python, Bash, HTML5, CSS3, SQL

Technologies & Tools: React, Node.js, Express, MongoDB, Supabase, Redis, REST APIs, Docker, Git, GitHub Actions, Ghost CMS, Linux

Education

RIT Kottayam, Pathanamthitta

Sep 2023 – Present

Bachelor of Technology (B.Tech) in Computer Science and Engineering

THSS Mallappally

2021 – 2023

Higher Secondary (Class XI & XII) • Kerala State Syllabus

Bethany Academy, Vennikulam

Graduated 2021

Class X • ICSE • 91%

Community & Leadership

Campus Lead – TinkerHub RIT

2025 – 2026

- Spearheaded campus tech events, workshops, and hackathons including Tink-Her-Hack.
- Coordinated with TinkerHub's national network and mentored student-led projects.

Campus Ambassador – Perplexity AI

Jun 2025 – Nov 2025

- Drove campus adoption through demo sessions and onboarding of student users.

Hackathon Mentor

Ongoing

- Regularly mentors teams at student hackathons; active participant in FOSS events and meetups.

Project Work

SmartPlace

2026

Self-hostable Placement Management System | React/Vite, Express, Supabase, Redis, Docker

- Built a full placement cell management platform with role-based access, job listings, and student tracking.
- Containerized with Docker Compose; includes Grafana/Prometheus monitoring stack.

CarTinder

2026

Full-Stack Web App | MERN Stack

- A Tinder-style car discovery platform where users swipe through listings and connect with sellers.

TinkerFetch

2026

CLI Tool | Node.js

- Terminal utility inspired by neofetch that fetches and displays live TinkerHub events in real time.

AI Google Form Generator

2026

AI-Powered Tool | Google Forms API

- Generates and manages Google Forms automatically using AI and natural language input.

KTU Status Tracker

2026

Uptime Monitor | Uptime, GitHub Actions

- Monitors the KTU website uptime using Uptime and automated GitHub Actions workflows.
